Airport Operations Dashboard

Airport: FRA - Frankfurt Date Range: Mar 30, 2026 ~ Apr 01, 2026 Reset all to default

Airport Operational Performance Dashboard

Analyze airport performance across time, flight distance, and route reliability. Identify when, where, and why operational disruptions occur.

Airport FRA - Frankfurt

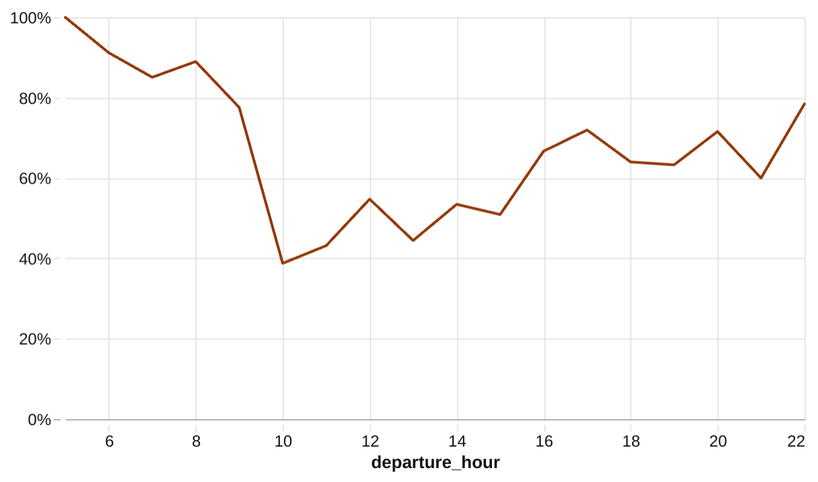
Date Range Mar 30, 2026 → Apr 01, 2026

Total Flights	Cancelled Flights	Disrupted Flights (Rerouted or Diverted Flights)	Average Delay per Flight (in minutes)	Departure on Time Rate	Cancellation Rate
1.55K	42 (1.55K)	4 (1.55K)	19	62.91%	2.7%

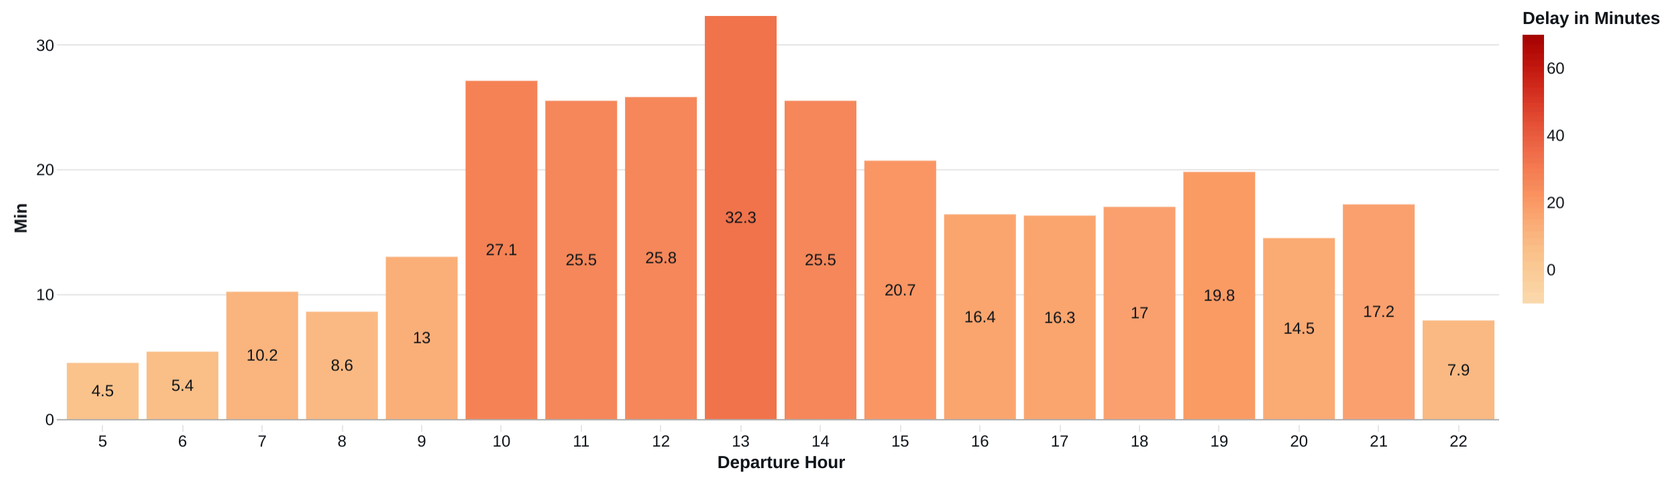
Section 1: Airport Operation Over Time

Analyze how delays, cancellations, and reliability vary throughout the day for the selected airport. Identify peak hours of congestion and operational disruption.

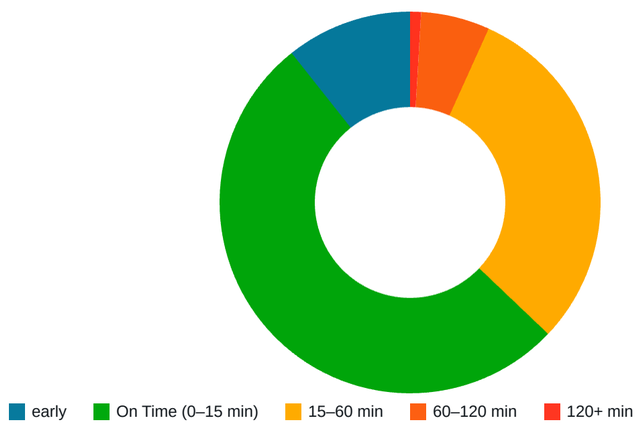
Departure on Time Performance by Hour
This Graph shows the percentage of flights being on time (up to 15 min late) per hour



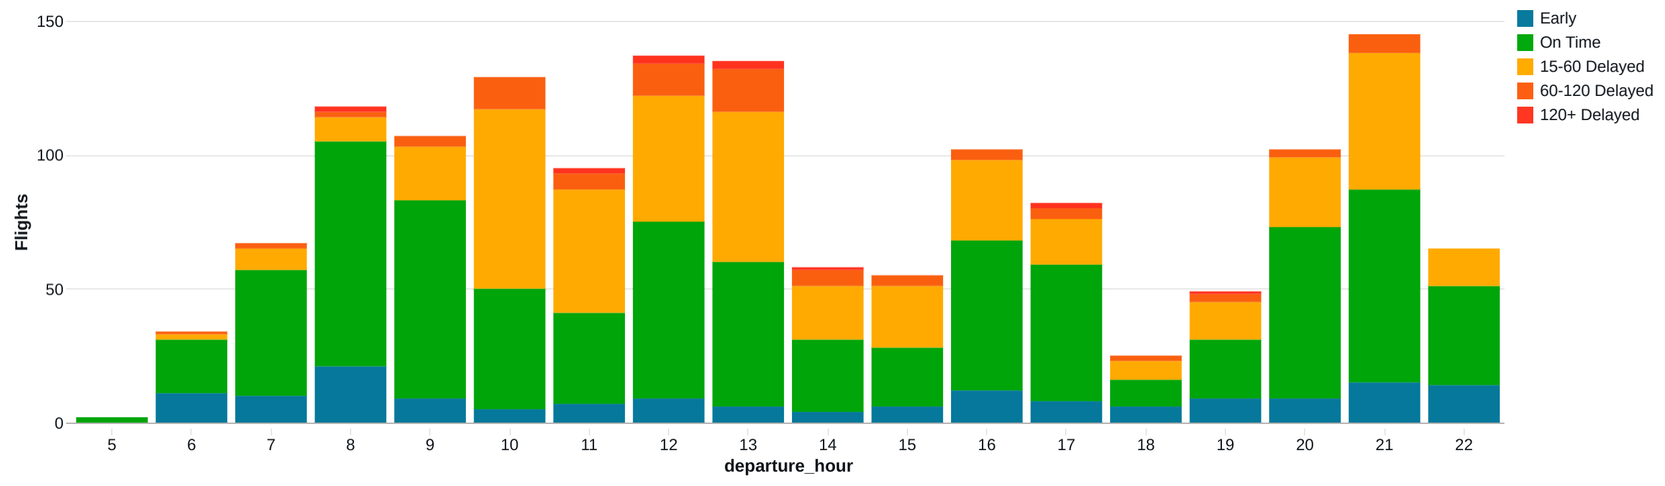
Average Departure Delay by Hour
Shows the average delay in minutes per hour



Departure Delay Distribution
Shows the distribution of departure delays across categories, highlighting the proportion of on-time and delayed flights.



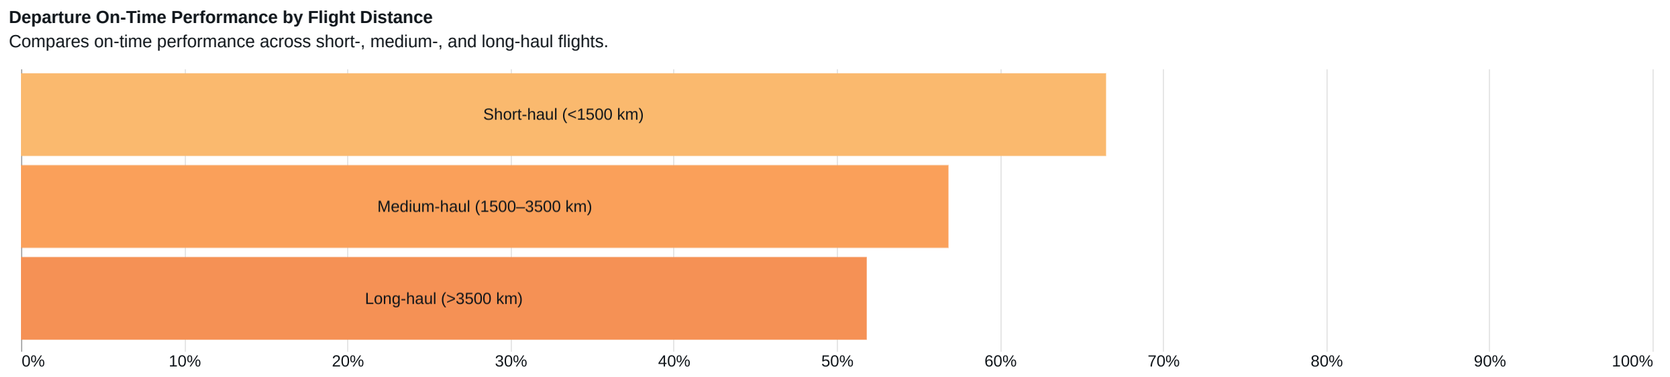
Hourly Departure Delay Distribution
Displays how delay severity varies by hour of the day, revealing when severe delays are most likely to occur.



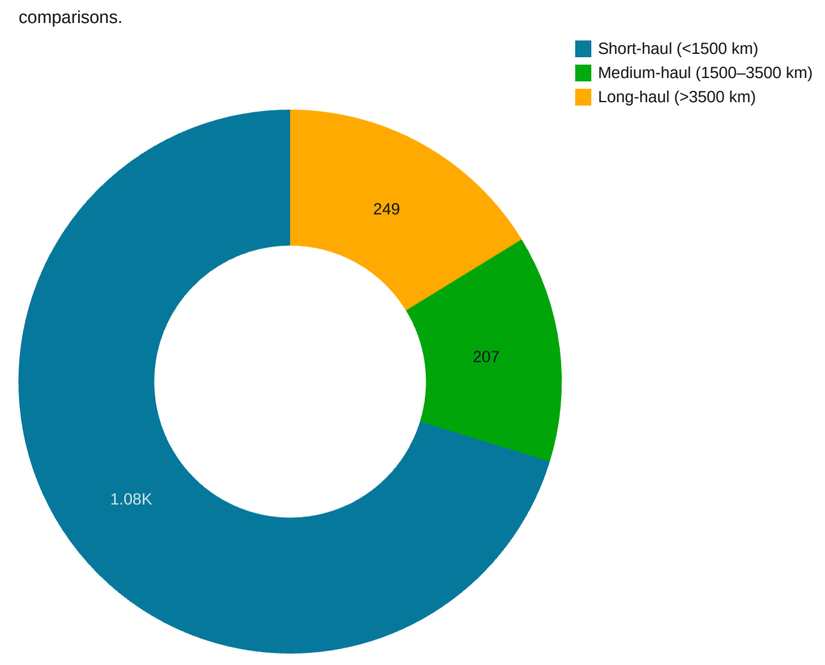
Section 2: Flight Distance Performance

Analyze how operational performance differs between short-, medium-, and long-haul flights.

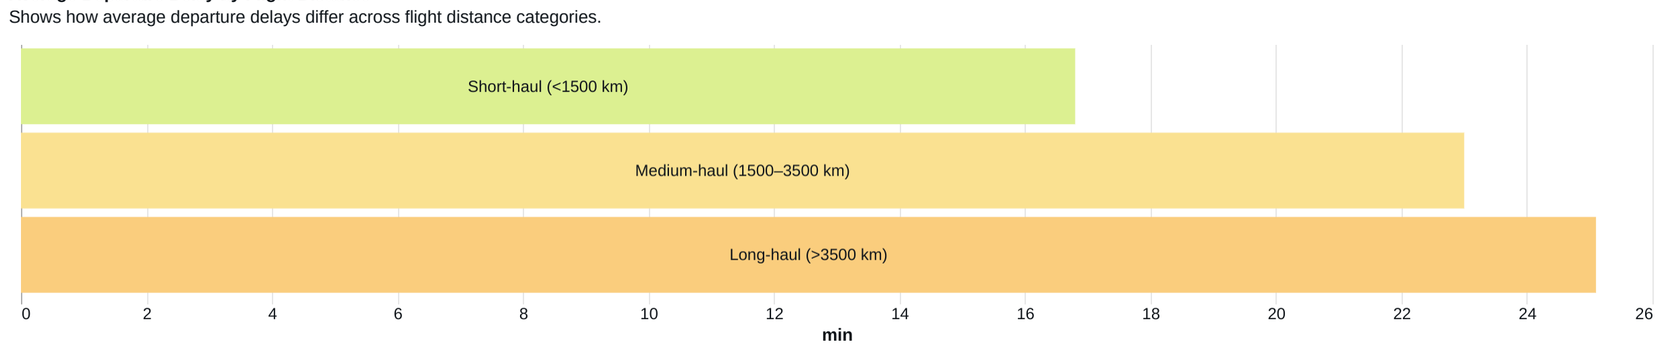
Departure On-Time Performance by Flight Distance
Compares on-time performance across short-, medium-, and long-haul flights.



Flight Volume Distribution by Distance Category
Displays the number of flights in each distance category to provide context for performance comparisons.



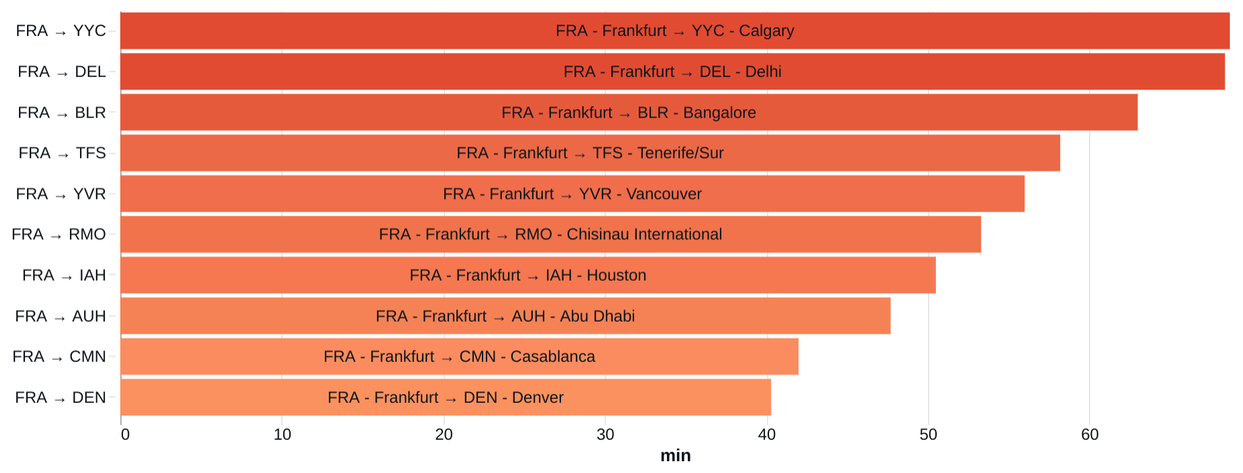
Average Departure Delay by Flight Distance
Shows how average departure delays differ across flight distance categories.



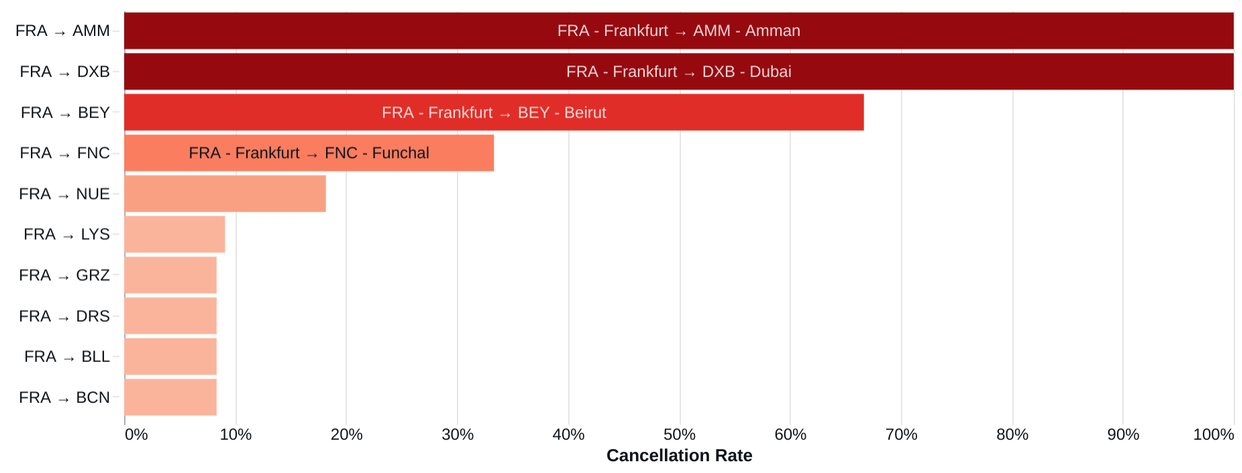
Section 3: Route Performance & Reliability

Identify the most critical and problematic routes based on delays, cancellations, and operational disruptions.

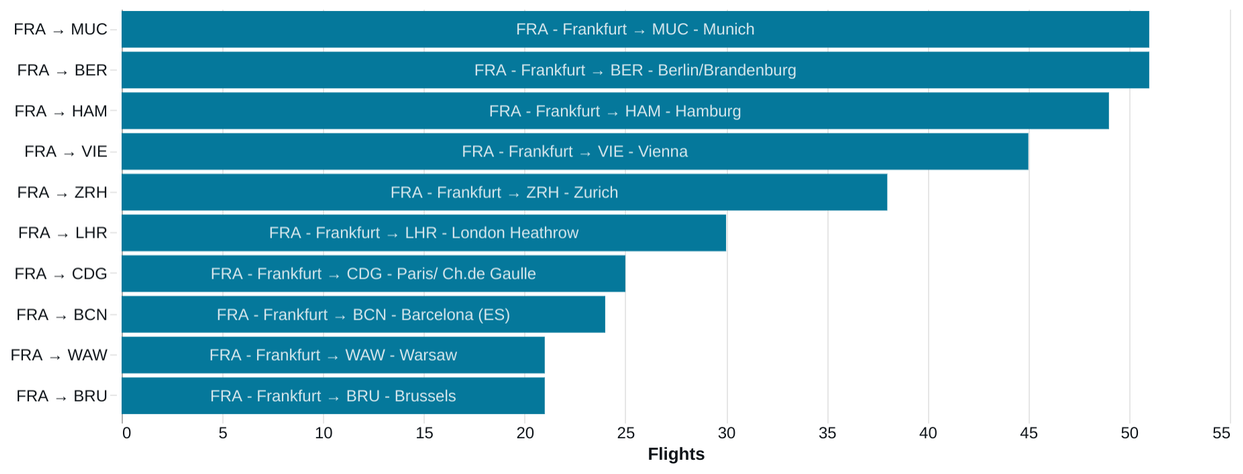
Routes with Highest Departure Delays
Highlights routes with the highest average departure delays over the selected period.



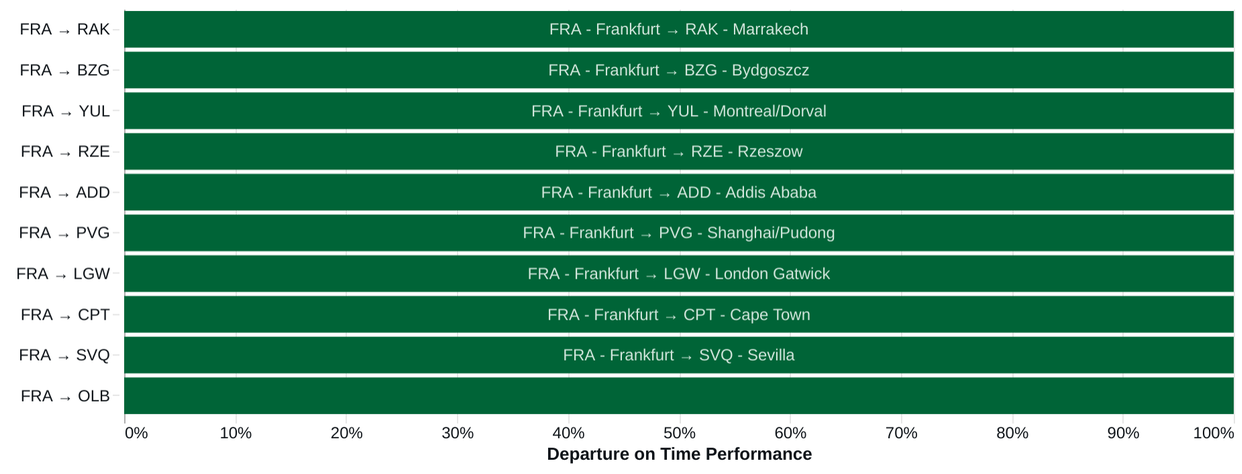
Routes with Highest Cancellation Rates
Shows routes with the highest proportion of cancelled flights.



Most Frequent Routes
Displays routes with the highest number of flights, indicating key operational corridors.



Routes with Highest Departure On Time Performance
Displays routes orderd by their On Time Performance.



Route Performance Overview
Detailed view of route-level performance including delays, cancellations, disruptions, and reliability metrics.

Route	Arrival Airport	Volume	Departure Delay	Arrival Delay	departure_otp_15_pct	arrival_otp_15_pct	cancellation_rate	route_disruption_rate
